

Aarav Sharma

B.Tech, Computer Science and Engineering - Year 1

demo.student01@nsut.ac.in

SYNTHETIC STAGING DEMO - NOT AN OFFICIAL RECORD

RESEARCH FOCUS

Machine learning systems, reproducible evaluation, and scientific data pipelines

SKILLS

- Python, NumPy, pandas, scikit-learn
- Git, Jupyter, experiment tracking
- Technical writing and literature review

SELECTED LEARNING PROJECTS

Battery telemetry baseline Prepared a reproducible notebook to compare anomaly-detection baselines on an open EV telemetry dataset.

Scientific metadata audit Mapped missing identifiers and licensing fields in a small open scholarly metadata collection.

Availability 8 hours per week during the prototype review period
